Pre-job risk assessment

🕐 Duration : 30min　**FRENCH**　**ENGLISH**　**SPANISH**

Better known as « PJRA », pre-job risk assessment is an essential tool for improving safety conditions. It will help protect workers by eliminating or minimizing potential hazards and risks.

An individual's skill and judgement are two key elements that can prevent most accidents. Nevertheless, there will always be specific situations where we cannot ignore the potential dangers.

◎　Target audience

It is intended for all members of the hierarchical line, such as internal and external workers, technical staff, tradespeople, and all workers called upon to perform non-routine operations in the course of their work.

⚒　Legal notice

There are no legal notice associated with this training. No other training or experience is required.

⚖　Intellectual integrity

Given the seriousness of the approach and the importance of the knowledge acquired through this training, the team of SSTenligne invites you to respect the integrity of the training and its questionnaires.

We suggests you answer to the best of your knowledge, that is, without help and without plagiarism.

☰　Teaching and evaluation methods

The learning method for this online training is based on interactivity, dynamism and self-learning. The training will be done at the pace of the learner and according to his/her availability. Your understanding and skills will be evaluated at the end of each module.

You'll need to correctly answer all the questions in the current module, which will be presented in « true or false » or « multiple choice » questions to continue your progress. If you fail, you'll have to repeat the module.
