

Personal protective equipment

🕒 Duration : 60min

FRENCH

ENGLISH

SPANISH

Wearing personal protective equipment is a common feature for most workers. Because of the many hazards in the workplace, it is important for each worker to know their importance.

Depending on the environment in which you work, you will be able to identify the risks you are exposed to during your work and choose the right equipment. You will also know the main characteristics of each PPE in terms of classifications, standards and risks.

🎯 Target audience

It is for all workers who face hazards in their daily lives. Regardless of the occupation, sector or company, personal protective equipment affects everyone.

☰ Teaching and evaluation methods

The learning method for this online training is based on interactivity, dynamism and self-learning. The training will be done at the pace of the learner and according to his/her availability. Your understanding and skills will be evaluated at the end of each module.

You'll need to correctly answer all the questions in the current module, which will be presented in « true or false » or « multiple choice » questions to continue your progress. If you fail, you'll have to repeat the module.

🔑 Legal notice

There are no legal notice associated with this training. No other training or experience is required.

⚖️ Intellectual integrity

Given the seriousness of the approach and the importance of the knowledge acquired through this training, the team of SSTenligne invites you to respect the integrity of the training and its questionnaires.

We suggests you answer to the best of your knowledge, that is, without help and without plagiarism.
