

Electric pallet truck

🕒 Duration : 60min

FRENCH

ENGLISH

SPANISH

A member of the low-lift forklift family, the electric pallet truck has seen an increase in use since the boom in large-scale warehousing. Its lifting capacity and the fact that it requires little or no physical effort to operate, make this equipment a must-have for businesses.

With this in mind, this training course will help you to assimilate all the basic rules that will enable you to work safely and correctly.

🎯 Target audience

It is intended for all workers and employers from different spheres of production who are involved in handling operations requiring the use of an electric pallet truck.

☰ Teaching and evaluation methods

The learning method for this online training is based on interactivity, dynamism and self-learning. The training will be done at the pace of the learner and according to his/her availability. Your understanding and skills will be evaluated at the end of each module.

You'll need to correctly answer all the questions in the current module, which will be presented in « true or false » or « multiple choice » questions to continue your progress. If you fail, you'll have to repeat the module.

🔑 Legal notice

In order to comply with **RROHS section 256.3**, the employer must offer practical training under the supervision of an instructor.

According to **CSA standard B335-15**, forklift operators must update their training every **3 years**.

🎓 Intellectual integrity

Given the seriousness of the approach and the importance of the knowledge acquired through this training, the team of SSTenligne invites you to respect the integrity of the training and its questionnaires.

We suggest you answer to the best of your knowledge, that is, without help and without plagiarism.

Targeted learning

Electric pallet truck

Module 1	Introduction
Module 2	Risks of accident
Module 3	Basic knowledge
	<ul style="list-style-type: none"> – Description of the electric pallet truck – Components of the electric pallet truck – Personal protective equipment
Module 4	Technical concepts
	<ul style="list-style-type: none"> – Braking – Pallet truck controls – Stability – Nominal capacity – Data plate – Dangerous locations – Unusual conditions and prohibitions
Module 5	Safe driving - Part 1
	<ul style="list-style-type: none"> – Travelling with electric pallet truck – Loading – Parking – Modification or addition – Mandatory sticker

Targeted learning

Electric pallet truck

Module 6	Safe driving - Part 2
	<ul style="list-style-type: none">- Inclined planes- Trailers and train cars- Freight elevator- Loading ramp or connecting bridge- Turns- Traffic lanes
Module 7	Battery
	<ul style="list-style-type: none">- Replacing and charging the battery
Module 8	Inspection and preventive maintenance
Module 9	Conclusion
