

Portable fire extinguishers

🕒 Duration : 30min

FRENCH

ENGLISH

SPANISH

A portable fire extinguisher is an essential prevention tool in a fire. It is therefore mandatory that all establishments provide one or more fire extinguishers and ensure that they are inspected and properly maintained.

When a fire breaks out, the fire can quickly grow and become very destructive. That's why it's important to know how to react quickly and properly. The first priority is your safety and that of the occupants.

🎯 Target audience

It is intended for all regular and casual workers as well as for all corporate executives.

☰ Teaching and evaluation methods

The learning method for this online training is based on interactivity, dynamism and self-learning. The training will be done at the pace of the learner and according to his/her availability. Your understanding and skills will be evaluated at the end of each module.

You'll need to correctly answer all the questions in the current module, which will be presented in « true or false » or « multiple choice » questions to continue your progress. If you fail, you'll have to repeat the module.

🔑 Legal notice

There are no legal notice associated with this training. No other training or experience is required.

⚖️ Intellectual integrity

Given the seriousness of the approach and the importance of the knowledge acquired through this training, the team of SSTenligne invites you to respect the integrity of the training and its questionnaires.

We suggests you answer to the best of your knowledge, that is, without help and without plagiarism.
